Introduction

Special mat tactical exercises in 2 moves

Chess is 99% a tactical story! All grandmasters are unanimous on the subject. Beginners and club players must imperatively be aware of this maxim. The fastest and most effective way to improve your chess performance is to increase your tactical skills, so that you can see at a glance the winning tactical patterns. There is no doubt that the best way to acquire good tactical vision is to do exercises that teach you to recognize the tactical elements that make up each combination. This book focuses on the crucial positions that every chess player needs to know. It cannot be overemphasized that knowledge of strategy is of little use if you have not first mastered the fundamentals of tactics. Good exercises to all!

Robert James “Bobby” Fischer

“All things being equal, it is the conviction that wins. Allied to a will to win, it serves as a detonator, arouses ideas, disperses doubts, and helps to think clearly.” - Robert James Fischer

The image shows a screenshot of the Chess.com website. On the left is a chessboard with a green and white checkered pattern. The top two rows contain dark chess pieces (King, Queen, Rook, Knight, Bishop, Knight, Rook), and the bottom two rows contain light chess pieces (King, Queen, Rook, Knight, Bishop, Knight, Rook). The middle four rows are empty. On the right side of the interface, there is a dark grey panel with the text "Play Chess on the #1 Site!" in white. Below this, it says "7,726,350 Games Today" and "201,804 Playing Now". There are two main buttons: a green "Play Online" button with a hand icon and the subtext "Play with someone at your level", and a dark grey "Play Computer" button with a computer icon and the subtext "Play vs customizable training bots".
